INVITATION TO SPONSORE THE MATERIALS TRI-CONFERENCE

The 5th International Conference on
Materials Processing for Properties & Performance (MP³)

The 3rd International Conference on Technological Advances of Thin Films &
Surface Coatings (Thin Films 2006), and

The 3rd International Symposium on Advanced Ceramics (ISAC-3)

11 to 14/15 December 2006, Grand Copthorne Waterfront Hotel, Singapore

30 March 2006

Dear Industrial Associate,

In celebration of the 20th Anniversary of The Institute of Materials (East Asia), a grand materials tri-conference will take place from 11 to 14/15 December 2006 at the Grand Copthorne Waterfront Hotel, Singapore. This special event combines the following materials-based conferences: 5th MP³ 2006, *Thin Films 2006* and *ISAC-3 2006*.

Started in 2002, the annual MP³ conference covers all research and application aspects relating to latest development and discoveries in materials processing, characterization, testing, and evaluation. Since its inauguration, MP³ has been successfully held alternately between Singapore and Japan. Every year it attracts about 200 participants from all over the world. This conference will be held in Beijing next year. The biennial *Thin Films* conference started in 2002 with 70 participants and grew to 250 at "Thin Films 2004" held in Singapore. *ISAC-3* attracts over 100 participants each year. This year, we are expecting about 500 to 600 participants to attend the tri-conference.

We believe that this is a good opportunity to showcase your latest processing and characterization equipment or apparatus to the researchers/speakers in this region and from the rest of the world. We thus invite you, with great pleasure, to participate in this exciting materials event in Singapore.

Various sponsorship packages have been designed to suit your needs for maximum impact at this event. To sign up for the conference exhibition or for more information, please contact Dr. Alfred Tok (details below).

Looking forward to your active participation, like before!
